

## Law firms deserve a marketing partner who *understands the law.*

Hughey LLC is a boutique consulting firm built exclusively for legal practices. We combine two decades of hands-on law firm marketing experience with a rigorous, data-first methodology to help attorneys attract high-value clients, eliminate wasted spend, and build a presence that commands trust without the guesswork of a general-purpose agency.

### CORE SERVICES

#### Data Analysis

Most firms don't know their real cost-per-case. We connect GA4, CallRail, and your CRM to build a clear line from marketing spend to signed retainers so every future dollar goes where the evidence points.

#### Agency Management

Your SEO firm, PPC shop, and web agency don't talk to each other. We act as your in-house marketing director: auditing vendors, enforcing accountability, and keeping every partner focused on signed clients, not impressions.

#### Intake Optimization

Marketing spend dies in the intake gap. We instrument your full lead-to-retainer workflow with Lawmatics, CallRail, and automation so every inquiry is captured, followed up within minutes, and tracked to signed engagement.

#### Strategic Marketing

Before tactics, you need a plan. We build market and competitor analysis by practice area, identify where your best-fit clients are actually coming from, and deliver a written strategy with 90-day execution targets.
